

# EXHIBIT 1

*Transcript from the January 6, 2023  
Deposition of Janos Levai*

## HIGHLY CONFIDENTIAL - ATTORNEYS' EYES ONLY

<p>1 exactly what the message name is. 4:08PM</p> <p>2 Q Right. But in either Party Mode or</p> <p>3 non-Party Mode, there is a set playlist message sent</p> <p>4 from the MDx server down to the Leanback screens;</p> <p>5 right? 4:08PM</p> <p>6 A Yes.</p> <p>7 Q All right. In either Party Mode or</p> <p>8 non-Party Mode, is there ever an instance where the</p> <p>9 screens will request a list of video items from the</p> <p>10 MDx server? 4:08PM</p> <p>11 MR. HEFAZI: Objection, form.</p> <p>12 THE WITNESS: Right now I don't remember</p> <p>13 whether there is an instance. I would have to look</p> <p>14 at the source code.</p> <p>15 BY MR. SULLIVAN: 4:09PM</p> <p>16 Q In both Party Mode and non-Party Mode, the</p> <p>17 Leanback screens always get the entire list of</p> <p>18 videos for playback; right?</p> <p>19 A Yes.</p> <p>20 Q Now, I believe you've -- well, strike 4:09PM</p> <p>21 that.</p> <p>22 When a user edits its playlist in</p> <p>23 non-Party Mode -- let me start over.</p> <p>24 If a user edits the playlist in the</p> <p>25 YouTube Remote application in Party Mode, are just 4:10PM</p> <p style="text-align: right;">Page 58</p>	<p>1 THE WITNESS: Well, it gets a list of 4:13PM</p> <p>2 videos and which one to play and starts playing that</p> <p>3 video. And then in order to know which video to</p> <p>4 play next when the current one ends, it refers to</p> <p>5 that list. 4:13PM</p> <p>6 BY MR. SULLIVAN:</p> <p>7 Q The locally stored list on the Leanback</p> <p>8 screens; correct?</p> <p>9 A Yes. I don't believe it asked the MDx</p> <p>10 server for which video to play next when the current 4:13PM</p> <p>11 ended. I believe it referred to that list that it</p> <p>12 caught before.</p> <p>13 MR. SULLIVAN: Let's take a ten-minute</p> <p>14 break.</p> <p>15 THE VIDEOGRAPHER: We're going off the 4:14PM</p> <p>16 record. The time is 4:14.</p> <p>17 (Recess taken.)</p> <p>18 THE VIDEOGRAPHER: We're back on the</p> <p>19 record the time is 4:26.</p> <p>20 BY MR. SULLIVAN: 4:26PM</p> <p>21 Q Mr. Levai, take a look at Deposition</p> <p>22 Exhibit Number 1314.</p> <p>23 A All right. I have it open.</p> <p>24 Q I want you to turn to I think it's Page 3</p> <p>25 of the PDF, and it ends with the Bates Number 196. 4:26PM</p> <p style="text-align: right;">Page 60</p>
<p>1 the edits sent from the mobile phone to the MDx 4:10PM</p> <p>2 server or does it send the entire edited playlist?</p> <p>3 A I don't know for sure. I need to look at</p> <p>4 the code.</p> <p>5 Q Where is the source of truth in Party 4:11PM</p> <p>6 Mode?</p> <p>7 A In Party Mode, I believe that would be the</p> <p>8 MDx server.</p> <p>9 Q And why do you believe that?</p> <p>10 A Well, because that's where, if a YouTube 4:12PM</p> <p>11 remote app joined the session, initiated Party Mode</p> <p>12 and sends a list of videos, the MDx server would keep</p> <p>13 a copy of it and then it would send that. It would</p> <p>14 update all the devices in that session with that list.</p> <p>15 Q Well, all the devices such as the Leanback 4:12PM</p> <p>16 screens and the YouTube remotes, they also store and</p> <p>17 maintain a copy of that playlist; correct?</p> <p>18 A Well, they need to so that they can show it</p> <p>19 in DUI to the user.</p> <p>20 Q And so they can play it back; right? 4:12PM</p> <p>21 A Well, in remote mode, yes, the lounge screen</p> <p>22 plays back those videos.</p> <p>23 Q Plays back those videos stored locally on</p> <p>24 the screen; right?</p> <p>25 MR. HEFAZI: Objection, form. 4:13PM</p> <p style="text-align: right;">Page 59</p>	<p>1 A Yes. 4:26PM</p> <p>2 Q Now, there is a heading there that says</p> <p>3 "Screen to Server messages."</p> <p>4 Do you see that?</p> <p>5 A Yes. 4:27PM</p> <p>6 Q And these would be Leanback screen to MDx</p> <p>7 server messages; correct?</p> <p>8 MR. HEFAZI: Objection, form.</p> <p>9 THE WITNESS: Yes.</p> <p>10 BY MR. SULLIVAN: 4:27PM</p> <p>11 Q Now, the first message listed there is</p> <p>12 called "nowPlaying."</p> <p>13 Do you see that?</p> <p>14 A Yes.</p> <p>15 Q Is that a message that the Leanback screen 4:27PM</p> <p>16 would have sent to an MDx server in non-Party Mode?</p> <p>17 A I believe so, yes.</p> <p>18 Q All right. If you look at the next page,</p> <p>19 so the last page of Exhibit 114, which ends in Bates</p> <p>20 Number 197, there is a message listed there called 4:27PM</p> <p>21 "nowPlayingPlaylist."</p> <p>22 Do you see that?</p> <p>23 A Yes.</p> <p>24 Q Is that a message that the Leanback screen</p> <p>25 would have sent to the MDx server in non-Party Mode? 4:28PM</p> <p style="text-align: right;">Page 61</p>
